

Slim Profile

Lightweight, compact size maneuvers easily through tight spaces

Ergonomic Adjustment

Simple height adjustment to accommodate any user

Storage Drawers

Optional locking or non-locking removable drawers for efficient and secure storage

SlimCart Documentation Cart

The non-powered, ultra-lightweight SlimCart™ glides easily through tight care settings, providing a flexible, cost-effective solution for mobile documentation. The compact profile and 4" casters allow for simple mobility through doorways, in patient rooms or in hallways. The SlimCart™ provides a generous work surface with a slide-out mouse surface on the left or right side, and is configurable with your choice of laptop, tablet, or lightweight computer monitor.
