

RADPAD® Protection for Your Greatest Asset

“Radiation is the only proven cause of brain tumors.”

-DeAngelis, LM, New England Journal of Medicine, 2001

Protect yourself and your team from scatter radiation. Even with lead aprons, thyroid collars, and lead glasses, you leave the most important 25% of your body unprotected against scatter radiation if you're not wearing the RADPAD® No Brainer®. The No Brainer® provides excellent protection for all fluoro-lab and operating suite personnel during any interventional procedure. The No Brainer® is lightweight, disposable, and easily adjusted to fit all head sizes. Because it is lead free, it is environmentally safe for disposal.

The comfortable and inexpensive No Brainer surgical cap will block up to 95% of the scatter radiation that

could otherwise adversely impact your brain, health and the longevity of your career.

Protect Yourself From Scatter Radiation with a RADPAD® Shield For Every Procedure

- Scientifically proven to reduce exposure to scatter radiation from 50% to 95%.
- Available in four different levels of protection.
- Lead free; disposable

9100 PRODUCT SPECIFICATIONS
